—Fairchild's government survey party left for the district east of Birch Lake on Monday afternoon to resume work on township surveys. Mr. Fairchild has just returned from Brandon, Ontario, where he lived over for this surveying work, gave them free passage to Edmonton and paid them higher wages than are being paid in Edmonton. Reports in Ontario said that no such help could be secured in Edmonton. Mr. Fairchild speaks enthusiastically of the Beaver River and Grand Prairie districts at which places he was engaged in government survey work a few months ago.

## LEDCU NEWS.

Leduc, April 7.

The monthly meeting of the business men's association of this town was held last night with a large attendance of members. A number of important questions were dealt with by the meeting. The prospects for the establishment of a creamery or cheese factory in the district were thoroughly discussed and correspondence read on the same from one of the government officials connected with this work. It was decided before taking further action in the matter to obtain the opinion of the farming community at large in the district.

On request of the Calgary board of trade a committee was appointed to frame a resolution from this body supporting provincial autonomy as far as it applies to the district of Alberta, Eastern and Western Assiniboia and Saskatchewan.

A further remuneration of fifty cents per settler here located in the district was granted by the association to the government land guide for the district.

It was resolved by the meeting to take steps towards establishing a monthly cattle fair to be held in town the first Wednesday of each month commencing in May.

## VEGRIVILLE.

Coinciding with the arrival of spring this week, we are glad to record the timely arrival of a bridge, and it is their purpose, we are informed to put two bridges over Birch Creek, in our village, and one across the same creek at or near Mr. R. Tetreau's. These bridges, when completed, will add much comfort to travel during "bad weather" and will also afford pleasure to our numerous landowners that has hitherto been enjoyed.

During the last month or six weeks settlers have been arriving daily—bringing with them enormous supplies of building material, machinery, grain and household furniture and utensils. Over 2,000 people are going to establish themselves in this great Vermilion river and Birch lake country during this spring—at least so it is reported upon good authority.

Rev. R. S. Langley, Methodist missionary of our village, conducted sacramental services on the River lake mission last Sabbath, while Mr. Cox, of Toronto, ably conducted the service at three of the appointments on this part of the mission. The careful and diligent efforts of our two much respected missionaries in behalf of the many people of this extensive territory, are given much encouragement by the very keen and kindly interest in all the meetings. The settlers are hoping that after a few weeks, the Vegriville school building will be thrown open to religious worship on Sundays and this, being very commodious, will be greatly appreciated.

We are quite pleased to chronicle the complete recovery of Mr. T. Tetreau's six-month old child who was extremely sick from an acute attack of pneumonia but is again restored to good health.

This week we are very sorry to record the death of Margie, the youngest daughter, of Mr. Hawthorne, of our village. On Saturday afternoon the first signs of scarlet fever were seen and medical aid was at once summoned but despite all that a physician's care and the best medical attendance could do, death claimed the little sufferer on the following Monday night. The death fever was of the most malignant type. We heartily extend to Mr. and Mrs. Hawthorne our sympathies in their time of sorrow.

Joseph Tetreau, son of Mr. R. Tetreau, who has been ailing for some time past, has recently been removed to the Edmonton hospital to undergo an operation for appendicitis.

Matthews Lambert, one of our earliest settlers in this territory, is building a saw mill in the north and is visiting for the snow, to dissolve that he may transfer his engine to the scene of operations.

The Vegriville school which had been closed for six months, is again open and school work has commenced.

Building construction is now the order of the day in our flourishing metropolis. Mr. Geo. Robertson, one of our merchants, is erecting a store

house in the rear of his present store and dwelling. Mr. Clements of Kinsale, is putting up a large two-story dwelling and general store while Mr. Hawthorne, recently from Strathcona, and British Columbia, is building a boarding house. This latter building will be much appreciated by travellers and incoming settlers.

Prairie chickens are becoming exceedingly tame, which proves perhaps from the fact that they spend much of the day in company with their domesticated relations.

## LOCAL.

—Weather:—Yesterday maximum temperature 43, 75-day minimum 27 above.

—Court:—Edmonton, No. 1343, I. O. F., will hold a meeting in Mr. G. Berg's residence on Monday evening next, at 8 o'clock sharp.

—Alberta Star, Curdston—From the ovation given Frank Oliver one would almost think it was Frank "oil"-over. Conservatives and liberals recognize in him a man worthy of their endorsement. Straight, clean, independent and honest—what more can be said?

—The butcher shop of the Vogel Meat and Packing Company, has been moved and a two-story brick building 25x50 will be built. Excavating for the new shop will commence tomorrow and the building will be rushed to completion. In the meantime the butcher shop occupies quarters in the Bellamy's cow house.

—Mr. Peter Louist leaves with stores and supplies for the Athabasca Land in a day or two. Mr. Louist has contracted with the Hudson Bay Company to take supplies down the Athabasca River to Chippewyan and has built four saws, each capable of carrying from ten to twelve tons of provisions, etc. The start will be made as soon as the rivers open, which will be from two to three weeks yet.

**TRUCKLE AHEAD.**  
The railway line running between Edmonton and Strathcona, state that a number of boys have been in the habit of coming time past of placing varnish obstructions on the track at different points up Mill Creek valley. As yet these obstructions have caused no accident, but sticks and stones are not supposed to be placed on the rails at all and the penalty for this offence does not require an accident to have it enforced. The names of these boys are known to the railway men who state that they will be compelled to let the law interfere if the offenders do not give up this serious practice.

## AN OPEN LETTER

To the Builders of Edmonton District.

Gentlemen: No doubt you have heard and read in the papers recently a great deal about the so-called "LUMBER COMBINE," and the consequent advance of prices. In this connection a few statements of fact from us may be in order.

The manufacturers of British Columbia advise us that the advance in prices is due to the increased cost of labor and of materials and that this justifies the advanced prices to the trade. Whether this is true or not we are not in a position to judge.

But we do know that it is very difficult to get orders for B. C. lumber filled with any degree of promptness. Many of the mills are sold out of stock and cannot at present ship a car. We therefore claim that the advanced prices are due to scarcity of lumber. The price of any commodity is regulated in our day not so much by the cost of production as by the general demand for the commodity.

As to our own prices we beg to say that we are careful to see that they bear a right relation to cost. We cannot help the rise in B. C. lumber because the cost price is considerably advanced. But in the lines of our own manufacture such as Windows, Doors, Frames, etc., our prices are lower than the prices for the same articles either in British Columbia or Manitoba. This will indicate to you our position in this matter.

In view of the scarcity referred to if you are building or intend to do so, we advise you to place your order with us as soon as possible so that we may get in a position to fill it when required. We promise to do the very best for our customers that circumstances will permit.

Yours Truly Yours,

## The Store of the Town.

### Men's Furnishings for Easter

What do you usually wear? A stiff hat? All right; the New Spring Styles are all here, bowing for recognition. Everything that fashion has declared right and proper is here for your choosing, and that will please your fancy and make your face look handsome. It may be you prefer a soft hat. Well, we have just as large and as varied an assortment in these—all shades and styles—crush hats at crumpled prices—and the same favorable prices prevail at our store.

### Men's Neckwear for Easter

New shapes, new materials and colorings for the great tie week. Come and see them and be delighted.

### Stunning Suits for the Little Men

### Men's Shirts

Whoever heard of a man complaining of having too many shirts? When you see our stock you'll wonder why men can resist buying shirts by the dozen. Our \$1.25 colored shirt is the most remarkable value known in the men's wear trade to-day. It has no equal under \$1.50 in the retail trade to-day. Designed and planned over specifications of our own, patterned after every comfortable line in the cutting, finished with every convenience and every touch of smart effect.

Everything in the Collar line. See our new low Pole-Crew.

### Shoe Values

While fortunately the rainy season has been little in evidence, yet all know as a certainty that we're going to have plenty of wet weather, and a necessary protection against cold is comfortable footwear. Especially in this time of the juvenile element who are obliged to attend school daily, also business people whose work takes them down town almost constantly.

Suits - \$2.00 to \$10.00.  
Overcoats - \$3.00 to \$8.00.

### Men are Coming By the hundreds

### Women's Silk Waists.

Why not! A chance to save considerable money on Spring Clothing is a chance too good to be missed. Styles of the period. Cloth and patterns every man wants—variety, good fitting. But the end is in sight. If you haven't shared the saving come to-day. Don't be like the man in Carleton, who suffered at every new style.

He stuck to old ways  
To the end of his days  
And his arguments—well, you would smile.

In fact they were the kind of arguments one sometimes hears against automobiles or the Marconi system—or against Ready-Made Clothing—old fashioned arguments against new fashioned ideas.

Our "PICADILLY" Suits for Men are dressy and exclusive, without paying an enormous price.

Did you ever see such exquisite Silk Waists for such little money?

Do you know of another, showing so complete, so up-to-date, and so satisfying?

Can you point to another silk where so many clearing styles, are shown at one time?

The more you look around, the sooner you'll want to make your selection from our display.

As a matter of satisfaction and economy, our goods will prove a great boon to all intending purchasers.

### Muslin Underwear

Some people try to prejudice women against ready-to-wear Undergarments, upon the ground that they are made in sweat shops. Admitting that they are, we don't you very much prefer that somebody else do the sweating that is necessary to turn out full length, generous, wide, skilfully cut, artificially pressed and tucked, and daintily trimmed garments at a less price than you'll pay for materials, alone—than to sweat over the cutting, fitting and stitching at home!

We are so strongly impressed with the idea that you would, we put on sale 500 of the cleanest, whitest, purest, best made, and most perfect fitting garments you ever saw at prices that will make anybody this side of the Manufacturer, sweat and sweat to match, either in quality or price.

Edmonton has passed the experimental stage, and will possess in a few years a metropolitan population.

The Railway Question is settled. The Canadian Pacific, Grand Trunk and Canadian Northern are assured quantities.

A fact not generally known substantiates that Edmonton will be a terminus for some years, is that the carrying capacity of the Canadian Pacific exceeds the Oriental and British Columbian trades combined, and the three great roads mentioned will halt before pushing on to the Pacific, thereby making our city of vastly more importance than it would otherwise have been.

Much of the timber is primalval. The principal streets will be boulevarded, and ancient growth furnish overshade.

## The Great Stores of the Great West

### "Fitwell"

That is the name of a line of Men's Boots we are now offering. There are several other names which would have been equally appropriate for these Shoes. "Lookwell" or "Wearwell" would have done equally well.

These Shoes are all sold at a uniform price, and that price is stamped on the sole—\$3.50.

DON'T THINK because this Shoe costs only \$3.50 that it is a "cheap" Shoe. It is nothing of the sort. It is a high-grade Shoe in every possible respect, except in the matter of price.

THERE ISN'T A MAN who reads this advertisement who has not at some time, possibly all the time, paid \$4.00, \$4.50 or even \$5.00 for a Shoe much inferior to the "FITWELL."

"FITWELL" Shoes are now in stock in Box Calf, Vici Kid and Enamel.

THERE ARE 3 REQUIREMENTS to be attained when you buy a pair of Shoes: 1st, perfect fit; 2nd, correct style; 3rd, good service for the money. Inspection will convince you that "Fitwell" Shoes fill the 1st and 2nd in an eminent degree. For the 3rd you will have to take our word, but our name is stamped on every pair, and you can always have your money back by asking for it, if wear is not entirely satisfactory.

WILL OFFER ON

MONDAY, MAY 4th, 1903,

200 = LOTS = 200

A portion of the ROWLAND ESTATE, otherwise known as "THE SYNDICATE."

Plans and Prices can be seen at the Office on and after the date mentioned.

\*\*\*\*\*  
This is the closest and best property available, and the choicest in and about Edmonton. The furthest part is from 10 to 15 minutes from the post office. The property is eminently the people's portion: is not controlled by a policy of inertia dictated by "Hebraic Hatred." The surveys conform to existing ones, and the streets will be projected to their legitimate confines. Building Sites on the verge of the hill overlooking the mighty Saskatchewan, the foliage and verdure of whose banks is not exceeded by the fiercest tropics or softest Pacific scenes, abound. Prices will be uniform and moderate, tempered as a corrective of the present indefinite craze.

TERMS.—One third Cash. Balance 6 and 12 months, interest 8 per cent. Agreements \$2 each, transfers free.
